

BIOSIGN Inner Treatment

Code 02275

\$220 (\$240 Canada)
1.52 fl. oz. (45 mL)

Product Overview

BIOSIGN Inner Treatment is a truly innovative formula to support maximizing and reactivating skin's natural rejuvenation activities. Powered by a multitude of plant extracts, this potent facial serum helps to achieve a healthy, youthful complexion, resulting in significantly improved texture, tone and radiance. The light serum quickly penetrates deep into the skin to enhance absorbency while multiplying the benefits of all other treatment products.

Ideal for every skin type, including sensitive skin. Great for anyone who wants to boost and re-energize skin's natural capabilities to fight against signs of premature aging.

Key Features & Benefits

- Immediately renews and smoothes skin's texture, leaving it plump and hydrated.
- Multi-corrective formula targets all visible and invisible signs of aging.
- Helps boost skin's natural surface cell repair for more youthful-looking skin.
- Reduces the appearance of fine lines and wrinkles while promoting a supple, radiant complexion.
- Evens skin tone with dramatically improved skin's moisture content.
- Enhances the effectiveness of all other skincare and treatment products, allowing them to perform better.

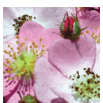

Japanese angelica root extract: Grown and harvested in Hokkaido—Japan's coldest region and home to many indigenous plants—Japanese angelica has been used as a traditional remedy to address various conditions in women. Its potent nutrients, naturally abundant in the root, helps to achieve youthful, revitalized-looking skin.

Madonna lily bulb extract: Known for its beautiful flower and aroma, Madonna lily, famously dubbed as Flower of the Virgin Mary, has been treasured since the ancient civilization. It symbolizes life and purity and has been used for millennia as a medicinal herb to treat the skin. In BIOSIGN Inner treatment, it is used together with a multitude of herbs and botanicals to help recover fresh, youthful-looking skin.

Jujube fruit extract: Used for over 4,000 years in Chinese Traditional Medicine, this fruit extract is considered to be a powerhouse of nutrients with many health-promoting benefits. Its unique set of nutrients play an important role in supporting the skin's resilience, while resisting signs of premature aging.

Pearl protein extract: Used for facial treatments in ancient Egypt, China and Japan, Pearl is a great source of antioxidants and amino acids. Uniquely formulated with botanicals in BIOSIGN Inner Treatment, it helps to condition, nourish and intensely moisturize the skin while promoting supple-looking skin.

Microcapsule Emulsion technology: The emulsion complex, tightly packed with active ingredients, is coated with ceramide, allowing efficient penetration and delivery of active ingredients where they are utilized. Its absorption rate is increased in greater level when used in combination with other skincare treatment products.
