Navy Black  
Code 05187

## Product Overview

This waterproof eyeliner is super-charged with gorgeous pigments to create versatile looks that last all day. It is formulated to glide on smoothly, for precise application, without tugging the delicate skin around the eyes.

## Key Features & Benefits

- Advanced gel formula glides on smoothly, ideal for creating versatile styles:
  - Draw a thin line along the lash line to define your eyes for a natural, elegant look.
  - For smoky eyes, draw a line first, then smudge it with the sponge applicator tip before the color sets.
- Smooth and long-lasting finish, even in the most humid weather, for a fresh look without smudging or caking.
- Formulated with botanical oils of grape seed, olive fruit and jojoba seed to moisturize the delicate skin around the eyes.
- Retractable pencil dispenser allows for effortless application with detailed precision for any desired look.

## Usage Guide

Gently turn to expose the eyeliner (not exceeding 1/8 of an inch) and slowly glide over your lash line, from the inner corner to the outer corner.

### *Application Tips:*

- *Draw a line to define your eyes in one long swoop, or in short strokes to build thickness gradually.*
- *Apply in layers to intensify color and blend using sponge applicator tip—for a gradated smoky eye effect.*
- *To create cat eyes, wing out the end of the liner into a fine tapered point.*
