

# BIOSIGN Night Smoothy

Code 02244 - **\$180** (\$190 Canada) / 2.11 oz. (60 g)

## Product Overview

BIOSIGN Night Smoothy is an innovative treatment sleeping mask that promotes radiant, youthful-looking skin overnight. This intensive and luxurious beauty treatment utilizes skin's optimal nighttime recovery for a smoother, firmer and more luminous appearance. Upon waking in the morning, skin's texture will look soft and plump; fine lines and wrinkles will appear smoother; and blotches and other signs of aging will be visibly diminished.

## Key Features & Benefits

1. A powerful Night Effector-EX complex (extracts of Althea root, Coltsfoot flower, Angelica and Licorice leaf extracts) works synergistically to support the skin's rejuvenation process—restoring a visibly smoother, translucent and younger looking appearance.
  - *This exclusive combination of herbal extracts was formulated to support skin's own rejuvenation activity to fight the damaging effects of premature aging.*
  - *Incorporated into the nightly skincare regimen, BioSign Night Smoothy helps skin to naturally regain the appearance of youthful suppleness and flexibility while enhancing the performance of all other beauty treatments.*
2. Formulated to work best when your skin is in recovery mode, Honeysuckle flower extract helps you wake up to softer, firmer and more radiant looking skin.
3. A unique Wrapping Activator formulation creates a thin film on the skin's surface aiding in deep and steady penetration of active ingredients while providing continuous hydration overnight. Skin's internal hydration level will be dramatically enhanced, resulting in a supple, youthful complexion.
4. Gentle and soothing aroma of Neroli (oil extracted from the flowers of Bittersweet Orange) and Lavender oil enhances the skin beautifying benefits by calming the senses—for a deep, restful night's sleep and a glowing, more youthful radiance in the morning.
5. Works as an overnight leave-on sleeping mask to seal in moisture and support skin's repair and renewal process. Targets a wide range of skin concerns such as dryness, rough texture, redness and deep expression lines, as well as various signs of aging and environmental damage.
6. The light "smoothie-like" emulsion feels pleasant and non-greasy on the skin, making it the perfect treatment for all skin types.
7. Allergy tested.

Althea

Coltsfoot

Angelica

Licorice

## Usage Guide

Use after the last step of your nightly skincare regimen. Use the spatula to scoop a small amount and smooth over the entire face, neck and décolleté area.

For best result, use BioSign Inner treatment, followed by your balancing lotion, moisturizer and skin cream; then use BioSign Night Smoothy to intensify the benefits of all other special treatments and skincare steps while enhancing your skin's own natural revitalizing process overnight.
