Abonriche 55

The Most Advanced Skin Revitalizing Treatment Serum!

Code 02294 - **\$280** (\$310 Canada)
Net Wt. 1.58 oz. / 45g

Product Overview

Abonriche 55 is an intensive anti-aging beauty treatment that maximizes skin's natural reparative power to reveal smoother, firmer and more youthful-looking skin. This age-defying serum features a synergistic blend of five plant extracts and five skin-revitalizing ingredients, including amino acids, peptides and soluble collagen. Formulated to be fast absorbing, the milky serum delivers high-performing nourishment to the skin to improve the appearance of fine lines, deep wrinkles and expression lines, while protecting the skin from future signs of premature aging.

Suitable for all skin types

Key Features & Benefits

1. Enriched with amino acids (glycine and hydroxyproline, which are major components of collagen) to help support skin structure for firmer, supple-looking skin. Peptides (short chains of amino acids), a major constituent of collagen, help to support normal repair for healthy-looking skin. In addition, soluble collagen and hydrolyzed collagen form a film of moisture to further support skin's natural revitalization process.
2. A carefully selected combination of five plant extracts, including Clove flower, White Lupin seed, Peony root, Angelica root and Chamomile flower, works synergistically with amino acids, peptides and other skin-building ingredients to enhance revitalizing benefits.
3. A powerful combination of vitamin C and vitamin E addresses oxidative stress, while providing comprehensive support for healthy-looking skin.
4. The luxurious, yet lightweight milky serum quickly absorbs into the skin without being heavy.
5. A light citrus-floral scent calms the senses while enhancing the beautifying benefits.

Usage Guide

Apply morning and night after the toning step and before the moisturizing and protecting steps of your skincare regimen. Dispense 2-3 pumps and gently spread over the entire face, concentrating on areas of concern.
