

BIOSIGN Night Smoothy

Product Overview

BIOSIGN Night Smoothy is an innovative skin-revitalizing treatment that promotes radiant, youthful-looking skin overnight. Inspired by the skin's own corrective and protective gene, this intensive and luxurious overnight beauty treatment nourishes and rejuvenates your skin all night long for a healthier, more luminous appearance. Upon waking in the morning, skin's texture will look soft and plump; fine lines and wrinkles will appear smoother; and blotches and other signs of aging will be visibly diminished.

Code 2243

1.76 oz. (50 g)

Key Features & Benefits

1. A unique Wrapping Activator formulation creates a thin film on the skin's surface aiding in deep and steady penetration of active ingredients while providing continuous hydration overnight. Skin's internal hydration level will dramatically increase, resulting in a radiant, youthful complexion.
2. A powerful Night Effector complex (a blend of Althea root and licorice leaf extracts) works synergistically to support the functions of the skin's self-repair and regeneration system—restoring a visibly smoother, translucent and younger looking appearance.
 - Althea (Marshmallow) Root Extract (*Althea officinalis*): A medicinal herb used since ancient times for its healing properties. The root extracts in particular contains potent anti-inflammatory properties, which may play a critical role in fighting skin degeneration and cellular oxidation.
 - Licorice Leaf Extract (*Glycyrrhiza glabra*): Considered one of the most vital medicinal herbs in traditional herbal medicine. The leaf extract contains a wide range of skin-benefiting ingredients and may help to treat a variety of skin conditions such as eczema, psoriasis, cold sores and discolorations. Its excellent water-binding capability helps replenish the skin with much needed moisture all night long.
 - This exclusive combination of herbal extracts was formulated to encourage skin's own enzyme activity to fight the damaging effects of sugar binding to protein fibers in the skin, which can cause premature aging.
 - Incorporated into the nightly skincare regimen, BioSign Night Smoothy helps to naturally regain skin's youthful suppleness and flexibility while enhancing the performance of all other beauty treatments.

3. Gentle and soothing aroma of Neroli (oil extracted from the flowers of Bittersweet Orange) and Lavender oil enhances the skin beautifying benefits by calming the senses—for a deeper, more restful night's sleep and a glowing, more youthful radiance in the morning.
4. Works as an overnight leave-on mask to seal in moisture and speed up the repair and renewal process. Targets a wide range of skin concerns such as dryness, rough texture, redness and deep expression lines, as well as various signs of aging and environmental damage.
5. The light “smoothie-like” emulsion feels pleasant and non-greasy on the skin, making it the perfect treatment for all skin types.
6. Allergy tested.

Usage Guide

Use after the last step of your nightly skincare regimen. Use the spatula to scoop a small amount and smooth over the entire face, neck and décolleté area.

For best result, use BioSign Inner treatment, followed by your balancing lotion, moisturizer and skin cream; then use BioSign Night Smoothy to intensify the benefits of all other special treatments and skincare steps while enhancing your skin's own natural revitalizing process overnight.
