## NHS Skincare Line

### Product Overview

NHS is a condensed, yet highly effective skincare line with four simple steps that provide the latest in skincare technology and anti-aging benefits.

Skincare works via the horny layer (the outer layer of the skin) to cleanse, moisturize and protect. Dead skin cells on the horny layer hardens the skin, making moisturizers difficult to absorb and foundations hard to apply. They also cause skin to look dull and tired with more apparent discolorations and spots. NHS helps smooth and soften the horny layer for healthy-looking complexion, build healthy skin cells and protect the skin from the damaging effects of free radicals.

Developed for women and men on the go who want a quick, simplified – yet effective – skincare regimen. Perfect for first-time skincare users. Suitable for normal to dry skin types. Contains no mineral oil, artificial emulsifiers (binding agents) or artificial colorants. All products have been allergy tested.

### Key Features & Benefits

1. Linden and Sage extracts: Help smooth the texture of the horny layer by softening the skin and exfoliating dead skin cells.
2. Mytilus Glycogen: Revitalizes the epidermis to produce healthy, young skin cell.
3. A powerful antioxidant combination of Jojoba leaf extract, Vitamin C & E and Parsley extract: Helps protect the skin from the damaging effects of free radicals.
4. Gentian extract and Marine Collagen: Moisturizes and protect the skin from dehydration.
5. Sphingolipids: Mimic the function of the skin's intercellular lipids to help retain moisture in between the skin cells.
6. Aquamoist: An exclusive Noevir ingredient that closely resembles skin's natural moisturizing factor (NMF), which helps control the amount of moisture in the skin to prevent dehydration.
7. Aromachology effect: Rose, Muguet and Jasmine creates a delicate floral base that helps to ease away stress.
8. Five super-refined natural bases and 25 herbal and botanical extracts provide synergistic effects.

### **Usage Guide**

Use morning and night as your primary skincare line. For best results, use all products together as a set. Use each as directed.

### NHS Deep Cleansing Cream

4.2 oz. Code 1611

**\$34** (\$36 Canada)

The NHS Deep Cleansing Cream was formulated to remove makeup, air pollutants and oil-based impurities. This gentle cleanser also serves as a soothing facial massage cream to help promote healthy skin. Time-saving formula rinses off easily for a quick p.m. routine; can even be used in the shower.

### **Usage Guide**

Use p.m. Squeeze a 1 1/2 to 2 inch amount into palm and spread evenly over entire face, being careful of the eye area. Rinse with lukewarm water or with a damp facial cloth. For daily massage, reapply the same amount. Rinse with lukewarm water or with a damp facial cloth. Follow with NHS Foaming Cleanser.

---

### NHS Foaming Cleanser

4.5 oz. Code 1612

**\$32** (\$34 Canada)

The NHS Foaming Cleanser helps remove water-soluble impurities and any remaining traces of Deep Cleansing Cream. The rich foam cleanses skin thoroughly, yet gently. Leaves skin feeling refreshed and clean, without stripping skin of essential moisture.

### **Usage Guide**

Use as first cleansing step a.m. Use after deep cleansing cream and massage p.m. Gently moisten face with lukewarm water. Squeeze a 1/2 to 1 inch amount into palm. With a small amount of lukewarm water, work into a rich lather and apply to entire face with gentle, circular motions. Rinse by splashing face with lukewarm water 20 - 30 times or until all traces of cleanser are completely removed and water beads on skin. Gently pat dry. Follow with the NHS Balancing Lotion.

---

### NHS Balancing Lotion

4.0 fl. oz. Code 1613

**\$39** (\$40 Canada)

The NHS Balancing Lotion rebalance the skin's pH level and tones and refreshes the skin to help it effectively absorb the moisture lotion.

### **Usage Guide**

Use a.m. and p.m., after foaming cleanser. Saturate cotton pads and gently pat entire face with upward strokes. Gently press pads around eyes, nose and mouth. Follow with the NHS Moisture Lotion.

## NHS Moisture Lotion

4.0 fl. oz. Code 1614

**\$43** (\$45 Canada)

The NHS Moisture Lotion adds essential moisture to hydrate the skin. Promotes a smoother appearance by softening and moisturizing the skin, while a powerful antioxidant formula prevents premature aging.

### **Usage Guide**

Use a.m., and p.m., after balancing lotion. Pour a generous amount into palm (adjust according to need) and apply gently and evenly over entire face with upward strokes. For added moisture and protection, follow with Extra Moisture Cream.
