Raysela UV Shield Primer SPF 50+

Product Overview

Noevir Raysela UV Shield Primer SPF 50 is an innovative, multifunctional sunscreen with broad spectrum defense that protects your skin against both UVA and UVB rays. Formulated with plant extracts and skin-nourishing ingredients, this lightweight formula hydrates, soothes and provides daily protection to fight signs of aging.

The non-greasy, fast-absorbing cream feels pleasant on your skin without leaving a white film or heavy feeling. It also provides the perfect canvas for a flawless makeup application.

Suitable for all skin types, including sensitive skin.

Key Features & Benefits

1. A gentle, wearable combination of sunscreen actives—zinc oxide and octinoxate—provides high level protection against harmful UVA/UVB rays and free radicals.
2. Squalane, which closely resembles sebum (oil), deeply moisturizes and locks in essential moisture for supple, healthy-looking skin.
3. Botanical extracts, such as grapefruit, meadowsweet and grape leaf helps nourish the skin while supporting skin's barrier function; seaweed (brown algae) extracts helps to protect skin from the effects of heat shock damage. A total of seven kinds of plant extracts provide advanced skincare benefits.

4. Conditions skin as it absorbs excess sebum. Your makeup stays fresh all day.
5. Perfect as a makeup primer, as it creates a soft-focus effect with a beautiful finish for foundation or other makeup applications.
6. No paraben. No mineral oil. No artificial colorants.

Usage Guide

Apply evenly before sun exposure. Can be used on face and/or body. Reapply as needed or after towel drying, swimming or sweating.

**Please consult a doctor before applying
to children under 6 months of age.*
